

**CO-DEVELOPING
PATHWAYS TOWARDS
CLIMATE RESILIENT
REGIONS IN EUROPE**

€21M

allocated in sub-grants to help regions develop transformative pathways to climate resilience via **2 open calls**.

100+

European regions and communities assisted in identifying locally-led climate resilience solutions.

10+

Innovation Practice Groups & Finance Innovation Lab to increase knowledge and design solutions and business models for climate adaptation and resilience.

Coordinated by:

Mobilize regional interests and networks to leverage political commitment towards the Mission Adaptation, elevate the ambition and capability of regional public administrations and connect innovation agendas.

Trigger wide engagement of citizens and diverse stakeholders in the co-creation of these transformative climate resilience pathways in a way that builds on the best available expertise and multiple understanding of current and future climate risks and opportunities, fosters local ownership and ensures long-term impact.

**OUR
OBJECTIVES
ARE:**

Facilitate learning and capability development within and across networked regional cohorts and increase knowledge on adaptation options across different Key Community Systems (KCS), tailor-made to local challenges and needs.

Boost enabling conditions, including funding and financing, to develop, test and advance systemic innovative solutions that increase local climate resilience.
